

ABSOLUTE 60 FLY “ABSOLUTE”

ABSOLUTE 60 FLY “ABSOLUTE”

Absolute 60 Fly, with a delivery in March 2017 will start her first charter season, with the aim to propose to her guests comfort, innovation and charisma. Every device on this boat was thought through to optimise her performance. The boat's space, the functionality, the actual layout, the emphasis on spatial arrangement and lots of natural light, are inherent to her Italian design DNA. Absolute 60 FLY is not only a luxury boat of 18 meters, she wishes to please those who love lying in the sun, thanks to the three dedicated sunbathing areas: one at bow with a padded sunpad forward and hinged backrests to allow three sunbathers the option to sit up or lay flat separately and two on the fly offering a great balcony on the sea.

Absolute 60 FLY yacht has three staterooms, besides crew area, all provided with toilets and separated showers. The ship owner's cabin has nothing to envy from bigger yachts with her sofa and vanity console. The other two cabins are offering plenty of comfort, one with a king size bed and one with twin beds.

This yacht is also equipped for lively moments, not only for cocktails and informal snacks but also for sophisticated dinners with a large table on the fly. The cockpit table, discreetly secluded by its privacy tent is the promise of unforgettable evenings. All these exceptional features do not take away the fact that with her IPS Volvo Penta, the navigation at cruising speed of 26 knots is very smooth and the fuel consumption reduced by 30%. Then, add the revolutionary “Sea-keeper” stabilisator, and you will not feel the waves.
